1001 INVENTIONS AND AWESOME FACTS FROM MUSLIM CIVILIZATION (NATIONAL GEOGRAPHIC KIDS) BY NATIONAL GEOGRAPHIC PDF

We often think that people from a thousand years ago were living in the Dark Ages. But from the 7th century onward in Muslim civilization there were amazing advances and inventions that still influence our everyday lives. People living in the Muslim world saw what the Egyptians, Chinese, Indians, Greek, and Romans had discovered and spent the next one thousand years adding new developments and ideas. Inventors created marvels like the elephant water clock, explorers drew detailed maps of the world, women made scientific breakthroughs and founded universities, architects built huge domes larger than anywhere else on earth, astronomers mapped the stars and so much more! This book takes the winning formula of facts, photos, and fun, and applies it to this companion book to the 1001 Inventions exhibit from the Foundation for Science, Technology, and Civilization. Each page is packed with information on this little-known history, but also shows how it still applies to our world today.

Very interesting book

By Mary Clement

I bought this book for a child who is moving with his family to the Middle East so he might gain an understanding of that culture. This is a very interesting book with so many discoveries which I never realized originated from the Muslim Civilization. A great book for everyone to read to bring our worlds closer together!

Excellent introduction to Muslim History

By W. O. Cleland

After reading the publication I ordered 6 more as gifts for family friends. Young people ages 8 to 12 report having enjoyed it and several have found it useful as a reference book.

It is well presented and easy to read, with heaps of interesting illustrations.

I highly recommend it for anyone interested in this area of history.
