Everyone can Think Possible

By Tsgoyna Tanzman

Not everyone can Think Positive, but EVERYONE can Think Possible! So many stories share their version of persistence, hope and just Thinking Possible in this new edition of Chicken Soup. Steven Alexander's Mantra of "Kidney Tomorrow" is a magnificent example of how our thoughts and focus nourish and create our realities. I am gifting this book to my friend Sage who desperately needs a kidney. There are other wonderful stories. My story, "WELCOME HOME" is about persistence, loss, & thinking possible to create a welcome home for life after the loss of my baby. I hope other mothers and fathers who suffer this loss will find hope and possibility.

Thought it was great!

By Mom of

Not only as a contributor, but as a reader, I love this book. It inspires and lifts up, it gives hope and courage and makes me want to try new things. The stories never fail to make me feel something and put a smile on my face that lasts all day. My advice is to take it slowly. One or two stories a day to make it last.

The Chicken Soup for the Soul series is a welcomed break from the disheartening headlines that dominate the news headlines. Perhaps best known for its stories which emphasize inspiration and hope, Think Possible does not disappoint with its stories of encouragement to stay positive and reach higher to accomplish more than you ever thought possible. I'm humbled to be a contributing author among such inspirational stories. I recommend this book to have a permanent place on your bookshelf and to give as gifts for loved ones, students and colleagues.
