Very Informative and Fun

By Police Service Tech

Wonderful, helpful book if you are interested in creating your own drawings to color. Has lots of good exercises to get you started. I drew a picture using the examples of owls! It turned out pretty good.

I LOVE this book!!!

By Heidi

I LOVE this book even more than I expected. It is super fun and has some great exercises that definitely go beyond doodling, especially for an amateur artist like myself and my kiddos. I haven't done a lot of them yet

since it's new but my boys and I did one together, splatter doodles by Gemma Correll. I am excited to try all of them. Some with my boys and some just for my own artistic expression. A few of my favorite artists included in the book, in addition to Correll, are Cori Dantini, Flora Chang, Cynthia Shaffer and so many more. The book itself is in excellent condition, as well.

A step up from hearts and smiley faces. :)

By A. Leach

LOVE this!!! I have been doing crafts my whole life and scrapbooking & paper crafts steadily for the last 10+ years, but I have never felt comfortable drawing freehand--at ALL! The extent of my 'drawing' included only hearts & smiley faces. After a milestone birthday last month, I decided to change that. This book is exactly what I needed! Clear instructions and fun (but not overwhelming) exercises are enough to make me feel more comfortable with drawing freehand.

If you already do some drawing, this is probably NOT the book for you. On the other hand, if a stick figure is the extent of your drawing trousseau and you're wanting to do more, then this might be what you're looking for.
