## About the Author

Rebecca A. Ottesen first learned SAS as a student at California Polytechnic State University, San Luis Obispo, where she now teaches for the Statistics Department. As a Biostatistician for the City of Hope, Rebecca uses every opportunity to incorporate her research and programming experience into the coursework for her Cal Poly students. Lora D. Delwiche enjoys teaching people about SAS software and likes solving challenging problems using SAS. She has spent most of her career at the University of California, Davis, using SAS in support of teaching and research. Susan J. Slaughter discovered SAS software in graduate school at North Carolina State University. Since then, she has used SAS in a variety of business and academic settings managing large databases, teaching SAS software classes, and helping other SAS programmers. She now works as a consultant through her company, Avocet Solutions.

No solutions for the programming exercises

By Amazon Customer

There are no solutions for the programming exercises, only 'hints'. I bought this book to prepare for an exam, but it won't be helpful at all. Really disappointed that I spent \$15.91 on it :(.

0 of 0 people found the following review helpful.

Good to practice SAS exercise!

By Joe

I just finished the semester and this book is very nice for a practice. When you read together with the little SAS book a primer, fifth edition, then it would be great for SAS beginner.

0 of 0 people found the following review helpful.

Great exercises, but not all answers provided

By Britt

This book has great exercises, but since it is a text book you don't get the answers to the even questions.
