These songs are so difficult but lovely!

By Joseph Z

I absolutely feel in love with the soundtrack that accompanies this piano book. The songs are all beautiful and written extremely well. This piano book is what actually made me want to start playing the piano. Yes it is THAT powerful of a soundtrack.

I got this book from playasia.com for \$60, it was worth it, though I was disappointed to see that it originally cost around \$20.... Also most normal piano books run only around 8-10 dollars. Though books from games or movies typically cost double that.

When I read other reviews for difficulty they read intermediate to advanced. I thought that I could be a beginner and learn the songs over long periods of time.... no i cant.

After many weeks of trying to get the fingering right i lost all hope. These songs are very hard to play, my teacher even has difficulty playing "Lightning's Theme" with 35 years of piano playing, though in my opinion that is the hardest song, though the best.

I recommend this song to somebody who is really willing to sit down and learn, with a lot of experience in piano playing. Do not think you will be able to play this your first 5 years of playing. Though you might be able to play "Vanille's Theme" with only a few years, it is by far the easiest to learn and perform.

If you are a die-hard FF13 fan like I am go for it and buy this even though it is costly. Though if you have no intention of playing piano I suggest buying the soundtrack off itunes so you can hear it whenever you want.

Beautiful arrangements of the fabulous game music

By Tim

Beautiful arrangements of the fabulous game music. I highly recommend this product. The music is more on

the advanced side.

Five Stars

By Jariah

The book was nicely sealed and no ripped pages. Definitely worth the \$22.
