INTERNATIONAL POLITICAL THOUGHT: AN HISTORICAL INTRODUCTION BY EDWARD KEENE PDF

To conquer the problem, we now give you the innovation to purchase the book *International Political Thought: An Historical Introduction By Edward Keene* not in a thick published data. Yeah, reviewing International Political Thought: An Historical Introduction By Edward Keene by on-line or getting the soft-file simply to check out can be one of the ways to do. You might not feel that reading an e-book International Political Thought: An Historical Introduction By Edward Keene will work for you. However, in some terms, May people effective are those who have reading practice, included this type of this International Political Thought: An Historical Introduction By Edward Keene

Review

‘A creative, insightful, and wide-ranging introduction to the history of international political thought, emphasizing issues of identity, inclusion, and exclusion in international society. Keene's overview of the field is at once eminently accessible to advanced undergraduates and stimulating, even challenging, to professional scholars. Time and again, familiar authors and issues appear in a new and fascinating light.’

Jack Donnelly, University of Denver

‘This is a learned and valuable overview of key concepts in the history of international political thought. Keene's focus on changing conceptions of how communities should be held together and separated from the rest of humankind provides a distinctive approach to international political thought over two millennia. All those who are interested in the linkages between political theory and international relations will profit from reading this important addition to the literature.’

Andrew Linklater, University of Wales

From the Back Cover

This volume offers an accessible and wide-ranging introduction to the history of international political thought.

Taking as its starting-point the various concepts people have used to think about differences between political communities, the book explores changing perceptions of international politics from antiquity to the twentieth century. As well as discussing well-known themes such as relations between independent sovereign states and the tension between *raison d'état* and a universal code of natural law, it also examines less familiar ideas which have influenced the development of international political thought such as the distinction between civilization, national culture and barbarism, religious attitudes towards infidels, and theories about racial difference and imperialism. Among the key thinkers covered are Thucydides, Machiavelli, Hobbes, Kant, Marx and Morgenthau, alongside less commonly studied figures such as Herodotus, Pope Innocent IV, Herder, Constant and Zimmern. Each chapter concludes with a guide to

further reading which will help students to develop a more detailed understanding of the subject.

Written with the beginner student in mind, this lively textbook is an ideal introduction for anyone studying international political thought.

About the Author

Edward Keene is an Assistant Professor at the Sam Nunn School of International Affairs, Georgia Institute of Technology.
