Saving Eva

By C. E. Cornell

Kindertransport is a moving drama of the effects of the transport of a Jewish girl from Germany to Britain, requiring her separation from her parents. In the present of the play, the girl Eva is a grown woman, a mother herself, contemplating a more normal separation from her own daughter. Her emotions are complicated by her memories of her past. The play is about Jewish identity, the difficult moral choices facing a Jewish parent in the late 1930s in Germany, what it means to "save" your child, and mothers and daughters. Well worth reading or assigning in a high school or college class in Holocaust literature.

Extraordinary

By northdakotagal

This DVD was captivating. I am a mother of young children, so my eyes weren't dry from start to finish. The heart of those poor children as they watched their parents disappear, some forever, from their line of sight as the train left the station... the faith and utter selfless love of families to give their own into the hands of others so that they might live... and the compassion of a country that accepted the lost... It is all here in this extraordinary story of human endurance.

I ordered the script after seeing a great student production at the RADA in London

By Gregory B. Strong

I ordered the script after seeing a great student production at the RADA in London. This simple but hard-hitting play brings home the poignancy of that time when Jewish families in Germany and Austria sent their children to live in England, hoping, vainly in many cases, that their families could be re-united later. I'm very happy to own this powerful playscript.
