Review

"I wholeheartedly recommend this book to anyone interested in the WW II air war. Fluid text, excellent translation, and a genuinely interesting story make this a great read." (Paul Mahoney IPMS/USA 2016-02-04)

From the Inside Flap

Luftwaffe pilot Walter Schuck flew the Me109 in the Arctic Sea fighter squadrons becoming the Russian air force's feared enemy in the far north. Awarded the Knights Cross in April 1944 he claimed his 100th kill in June of that year, then barely 48 hours later shot down 12 aircraft in one day, a record never achieved by any other Arctic Sea pilot.

Celebrated by his colleagues for his skill, courage, sheer guts and chivalry including the deep feelings for those he shot down, he earned the nickname "Adler der Tundra" or "Northern Knight."

In this autobiography, the author tells his story simply, conveying his impressions of life, the rationale of the Luftwaffe and the everyday life of a military man in those times, including the difficulties and hardships of the war in the Arctic Seas. In a gripping narrative, the author helps us to understand why he and his colleagues were prepared to lay down their lives for their people, and their country.

Rich in detail and facts and supplemented by photographs from his personal collection and color aircraft profiles, Walter Schuck helps us to put the past into context, painting a unique picture of life in the Luftwaffe during the times of the Third Reich.

From the Back Cover

Luftwaffe pilot Walter Schuck flew the Me109 in the Arctic Sea fighter squadrons becoming the Russian air force's feared enemy in the far north. Barely two months after being awarded the Knights Cross in April 1944 he shot down 12 aircraft in one day? a record never achieved by another Arctic Sea pilot.

His mastery continued when in March 1945 he joined Jagdgeschwader 7, newly equipped with Me262 jet fighters and shot down two Allied fighters on his first operation. Taking command of the third Staffel of JG 7 his success in the aerial theater was unsurpassed until meeting one of the bombers' escort fighters in combat, his fuel system exploded and he had to bail out. Walter Schuck's war was over, after 500 front line sorties and 206 confirmed kills.

Celebrated by his colleagues for his skill, courage, sheer guts and chivalry including the deep feelings for those he shot down, he earned the nickname 'Eagle of the Tundra' or 'Northern Knight.'

Rich in detail and facts and supplemented by photographs from his personal collection, Walter Schuck's story helps us to put the past into context, painting a unique picture of life in the Luftwaffe during the times of the Third Reich.

Impressive memoir. A Must Have for anyone interested in WWII aerial warfare.

By MarkJ

I can heartily recommend this book for anyone interested in the day to day life of a Luftwaffe Jagdflieger (fighter pilot) fighting in extremely difficult circumstances. Compared to other theaters on the Eastern Front, most of us in the West do not know as much about the efforts of the Luftwaffe and Wehrmacht in the harsh conditions of the Arctic Circle. This book helps to fill in some gaps in our understanding of that theater of operations. In this book, Herr Schuck comes across as an honorable and decent man who served his Fatherland bravely and well. "Luftwaffe Eagle: From the Me109 to the Me262" should reside on the bookshelf of anyone interested in Luftwaffe operations over the Eastern Front.

The BEST of the Best

By Dan Kurt

I am cataloguing my library (Readerware 3) currently and came across this book. Without a doubt it is the best memoir of WW2 that I have read and I have read a lot of them. I only wish he had written a book of his adventures after the war. Don't miss this book.
