**My Life With The Spirits: The Adventures Of A Modern Magician By Lon Milo DuQuette.** A job might obligate you to always improve the expertise as well as encounter. When you have no adequate time to improve it directly, you can obtain the experience and understanding from reviewing the book. As everybody knows, book *My Life With The Spirits: The Adventures Of A Modern Magician By Lon Milo DuQuette* is preferred as the home window to open up the world. It means that reading publication *My Life With The Spirits: The Adventures Of A Modern Magician By Lon Milo DuQuette* will certainly offer you a new method to discover every little thing that you need. As guide that we will offer right here, *My Life With The Spirits: The Adventures Of A Modern Magician By Lon Milo DuQuette*

## Amazon.com Review

The first time I met Monsieur DuQuette, at a booksellers' convention in Los Angeles, he read my fortune with tarot cards. I was about to move, he predicted. Irritated, I huffed "that was ridiculous," I'd just moved into my boyfriend's house. When I arrived home from the convention, my aforementioned boyfriend told me he'd had a change of heart and would I please move out as soon as possible! The next time I sat down with DuQuette, at the same conference (several years later in Chicago), he regaled me with witticisms and stories. I was struck by his sincerity, self-revelation, and personable nature. This is the first time a true magician has written an autobiography since *The Confessions of Aleister Crowley*, and it's the next best thing to being able to sit with the charming and adept DuQuette. It's intimate, straightforward, and neither self-deprecating or egotistical. It contains excruciatingly honest revelations by a contemporary individual attempting to understand the universe and how it works. Here's a man who comfortably accepts himself and urges the reader to do the same. If you are not interested in magick, think of this as a fascinating autobiography. If you are, it's required reading. --P. Randall Cohan

## From the Back Cover

Not since *The Confessions of Aleister Crowley* has a true magician told his own story. *My Life with the Spirits* is a rare glimpse into the fascinating, sometimes terrifying, sometimes hilarious world of a modern ceremonial magician. Hailed by critics as the most entertaining author in the field and one of the most widely respected members of the magick community, Lon Milo DuQuette gently draws you into the introspective world of the modern magician, tickles you with hilarious observations and self-effacing confessions, then (often in the same paragraph) slams you in the heart with breathtaking profundities.

DuQuette's most impressive quality is that in spite of his many accomplishments he doesn't take himself too seriously, which makes what he has to say all the more appealing. He's been through experiences that many Americans can relate to from his "agonizing years of Sunday School" and service as an altar boy, to riding the waves of the cultural revolution of the 60s. After sorting through an abundance of spiritual paths, he finally came upon one that resonated with him. By shedding light on his own development -- as a person and a magician -- DuQuette provides a beacon for aspiring magicians everywhere.

About the Author

Lon Milo DuQuette is the author of "Enochian Vision Magick".

Thanks for the great intro, Lon.

By Jack

LMD is a wonderful writer, and this is an easy introduction to him and his work. I read *My Life With the Spirits* in less than three days, two of which were spent at the beach with two small children. Some silly reviewers threatened to put this book down when they read about the kitten. I almost put it down when LMD drew early profundity from the Beatles, truly dating himself, but this is mercifully quick and passing, because he immediately follows through by recounting his encounters with a real- and hilarious- magician. (And further- maybe my kids will turn up their nose at Ozzy and Metallica as fuddy cornography? Nah.) So, overall, I gained a nice introductory grasp of what Enochian magick is about, and how someone of intelligence and common sense can become a practitioner with a straight face. OK, a straight face with a smirk and a wink. There's a lot to learn about the OTO, A'.A'. and thelema, and DuQuette's bio is a great place to start. So leave the neo-goth, adolescent, pseudo-libertarians to their own work and begin here.

Somewhat Interesting

By JC

I have heard DuQuette interviewed and he seems like an interesting guy, and this book is somewhat interesting in that it narrates the events in his life that involve his magical pursuits. Some of the adventures are not very convincing--in fact some of them are pretty lame, to be honest----- and there is more story telling than actual analysis or esoteric information. It is a pleasant read but it probably will be of most interest to people who are already into this author's works and want to hear a little about his background.

An Interesting Read...

By Amazon Customer

Like some others who have posted a review, it was the title that drew me to this book. Never heard of the author before, but he had a 'deep in thought' stare on the cover with mysterious writings... Who could resist possible diabolical behavior with secret magical workings? What turns out, it's mostly about a typical hippie from the 70's (haha, just a fun jab) and his struggles to survive various stages in his life of faith/magick. Contempt for God is evident, but after reading the chapters of his early life in Nebraska, you can see clearly how this developed. From birth, to a brief music career, to a hard life direction all the way to Crowley and beyond, you get a clear picture of how his choices on things come forward. There are a few magick moments in the book, but like many stories of practiced magick, it could go either way, it ~could~ have been real, or it could have just as easily been chance or imagination or strong desire. But that is up to the reader on that. There are fun moments throughout, very well written! One of my favorite parts is the 'mentally mooning' of bragging psychics and/or mystics. I love that, too funny. Expect fun moments like that. To me in the end it was a brief book of reflection on self discovery for posterity. No stale braggadocio here, or impossibly naive claims of power like so many others. The author lays out his achievements and faults to bring together quite an interesting progressive story. I've read it several times. I have no patience or continued focus on boring things. A testament to the writer for an excellent read. Because of this book I've looked into other books by this author.
