Cookies and Cake Pops

By Robun

This book is a great surprise. While this book may suit cake decorators, it is a fabulous resource for cookie and cake pop decorators. This book guides you with simple steps through making small flowers , and then gives great ideas for how to use them on your cookies etc. A refreshing book, as I find most sugarcraft flower books are aimed at making large flowers to adorn cakes. But this one suits those who make cookies and cake pops.

Good pictures and instructions

Same issue as with the other Squires Kitchen Guide - English tips. Need equivalents for Wilton or Azteca tips.

Good pictures and instructions.
