I stumbled on this book by accident, but couldn't quit reading it once I started. Full of suspense, this book was a great find.

Simple Yet Addicting

By prydain16

I'm not going to bother writing an in-depth review because I know that not many people will read this review. This book isn't exactly a hot seller.

But if you are into supernatural tales, I would highly recommend this series. The books are not long and they have a writing style that is aimed to appeal to a younger audience, yet the story is also quite dark and has undertones and subtext that older teens and adults could appreciate.

The books are fastpaced, interesting, and actually creepy. I read lots of adult horror novels and books but I still found this book series fascinating. The story pulled me in and I read each book in a matter of two or three days, and that was only because I forced myself to put the book down - every chapter ends with something that makes you want to keep reading.

While reading these books, I am able to perfectly imagine everything that happens as though I'm actually seeing it. The characters are interesting and you care about what happens to them, which makes you feel more into the story when something bad may happen to them. And the stories are able to be creepy because you don't really know what's happening, you don't know who the villain is. The atmosphere is just very well constructed.

So basically, I'd HIGHLY recommend this if you're looking for a fast read and you like suspense/horror. If you have negative feelings about the story based on other reviews here and the plot, then don't read it. If you think it's gonna be bad, it probably will be. But I bought it without knowing a THING about it and now this series is one of my favorites. I enjoyed this more than any Stephen King novel, but hey, maybe that's just me.

Amazingly Twisted

By A Customer

This has to be Richie's best work.

Lucy's mother has just died forcing her to live with her closest relatives. her aunt irene and cousin Angela.

Lucy was told that nothing bad ever happens in her new little town called pine ridge. But that wasn't true. One night a strange power was passed onto Lucy after falling into an open grave. She started having visions, little pictures of terrifying events flooded her head sometimes making her sick. Things have started to get dangerous, someone's watching and there ready to make there move.

I did a book report on this book after reading the whole series and I had to write a paragraph that would draw the reader in and make them interested.

haha i hope it works

this book is the best i have ever read

Richie has inspired me to write and someday i want to be an author and write these kinds of stories.

and hopfully i will have my first book out by the time i am 14 = P

I love Richie and this book please read it!
